Sustainable Travel Grant: Funding Diocesan Buildings Committee –

Available for Churches

Did you know that the Scottish Episcopal Church's Sustainable Travel Grant offers up to £1,500 to support churches in making travel to church and church-related activities more sustainable?

The grant is designed to encourage environmentally friendly travel and improve access for people attending worship, meetings, outreach activities, and other church events. Funding can be used for a range of initiatives that help reduce reliance on private car use, support active travel, or make journeys more accessible and sustainable. Projects might include bicycle facilities, improvements to walking routes, shared transport initiatives, electric vehicle charging points, or other creative solutions that help people travel to church or on behalf of the church in a greener way.

This is an excellent opportunity for congregations looking to support the SEC's commitment to environmental stewardship while making church life more accessible to their communities.
